LOCAL DEVELOPMENT

Welcome Book

University of Padova

Department of Historical and Geographic Sciences and the Ancient World

WELCOME!

Dear students,

I am delighted to welcome you at the University of Padua, and specifically at the Master's degree programme in Local Development that I coordinate.

The programme you have chosen, the Master's degree programme in Local Development, started in 2010. During these more than 10 years, the programme has changed, renewing itself to take into consideration the current challenges that 'local developers' have to face in this changing world. Contemporary societal, political, and environmental challenges require taking into account the complex dynamics intersecting local, regional and the global scales, and this is another fundamental perspective that our Master adopts.

You are embarking in a 2-year journey. During this span of time, there will be time to study hard and time to relax and have fun with your friends; time to sit down in the library or in the study room and time to visit and travel. I suggest you use the skills you are taught in class to become local development practitioners as a tool to become part of the Padua's broader community, a citizen of this city as well as a citizen of the world.

The Master in Local Development comprises a very diverse group of people, representing different genders, social classes, ethnic groups and we may have different physical and mental abilities. The respect for such differences is a key pillar for our community, and I encourage you to adopt an inclusive and respectful attitude in front of your colleagues.

As we strongly believe in the importance of preserving the unique value of the educational experience of face-to-face learning, lessons will be fully held on-site in Padua. On an exceptional basis, alternative online or offline teaching methods will be applied only to international students who have already requested the Study Visa but have not received it yet.

I ask you to be cooperative with your fellow students, the administrative staff, and your professors. Working together is another basic principle of local development. I am ready to work, and I hope you are all in as well!

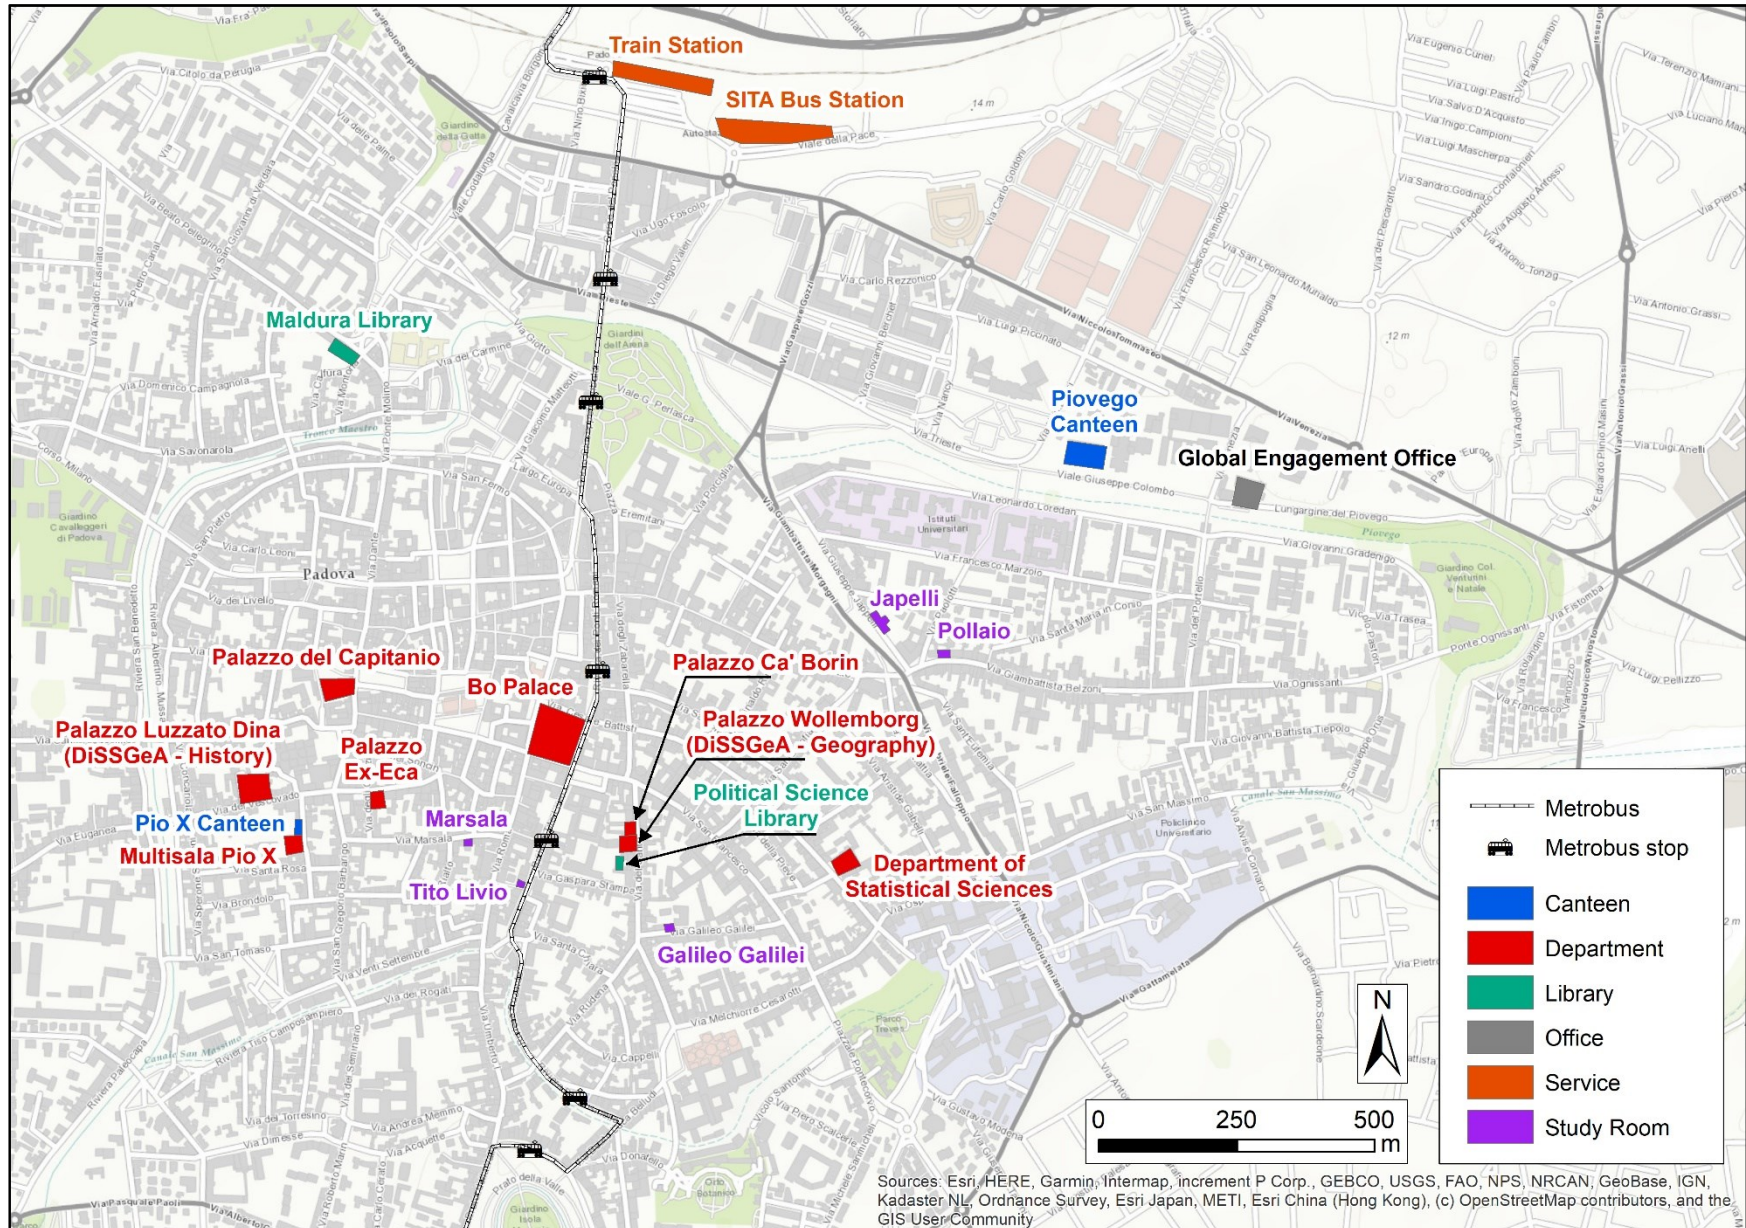

Wish you to make the best out of this learning experience!

Professor Chiara Rabbiosi
Head of the Master's degree programme in Local development
Department of Historic and Geographical Sciences and the Ancient World-DiSSGeA

All the information you may need is in this booklet or in the [Moodle page of the course](#). Check it out before contacting any of the address above!

USEFUL INFORMATION

Classes, exams and holidays

All the information you may need is available at the Key Academic Dates page of our website: <https://www.unipd.it/en/key-academic-dates>

Class schedule, exam calendar, room occupation and study rooms

The following link will allow you to check all the information regarding these topics:

<https://agendastudentiunipd.easystaff.it/?view=home&include=homepage&lang=en>

Please notice that not all course units start on the same day and that schedules and rooms may vary from week to week. Please check Agenda Studenti regularly

MOODLE PLATFORM

In the [Moodle platform](#), you can find all the general information about Local Development master's degree programme as well as course units' content and schedule, teaching materials, case studies, exercises, reference texts, articles, for each course unit. You will receive the credentials at the time of enrolment, together with the email address and the credentials for [Uniweb](#) (on-line portal for students).

STUDY PLAN

A study plan is a detailed overview of activities to be completed to achieve your degree. We suggest you fill in the study plan at the beginning of the academic year (starting from the end of October) in order to be able to register for exams: it can then be modified until you submit the registration for final thesis discussion.

The filling of the plan must be performed via [Uniweb](#): Login → Home → Study plan | The rules are available on [Moodle](#).

UNIWEB

[Uniweb](#) is an information system that allows all students enrolled at the University of Padova to access from home to the information about their studies and to directly manage their university career, from pre-registration and enrolment procedures to exam enrolments and degree applications. Professors use Uniweb to insert exam calls, publish exam grades and record exams.

FIRST YEAR COURSES – cohort 2023/24

FIRST SEMESTER

COMPULSORY COURSE UNITS	ETCS	HOURS	LECTURERS
TERRITORIAL STRATEGIC APPROCHES FOR LOCAL DEVELOPMENT	6	42h	CELETTI D.
TERRITORIAL GOVERNANCE AND PUBLIC POLICIES	6	42h	PANOV T.
GEOGRAPHY FOR LOCAL DEVELOPMENT: THEORY AND PRACTICE (Integrated course – C.I.):			
GEOGRAPHICAL SPACE: CONCEPT, TOOLS AND PRACTICE (mod. A)	6	42h	PEPA M.
GIS: MAPPING AND ANALYSIS (mod. B)	9	63h	PIOVAN S.E.

1 COURSE UNIT OF YOUR CHOICE BETWEEN:	ETCS	HOURS	LECTURERS
PRINCIPLES OF ECONOMICS FOR LOCAL DEVELOPMENT	6	42h	RANGONE M.
STATISTICS FOR SOCIAL SCIENCE	6	42h	CASTIGLIONI M. NGUYEN T.K.H.
SOCIAL RESEARCH METHODOLOGY	6	45h	BASSOLI M.
LOCAL DEMOCRACY	6	45h	NESTI G..

SECOND SEMESTER

COMPULSORY COURSE UNITS	ETCS	HOURS	LECTURERS
CIRCULAR ECONOMICS AND LOCAL DEVELOPMENT	6	42h	GAMBAROTTO F.
PROJECT PLANNING AND QUANTITATIVE METHODS (Integrated course – C.I.):			
STATISTICAL METHODS FOR LOCAL DEVELOPMENT (mod. A)	9	63h	CASTIGLIONI M. PACCAGNELLA O.
ESSENTIALS OF PROJECT PLANNING AND EVALUATION (mod. B)	6	42h	POZZA A.

1 COURSE UNIT OF YOUR CHOICE BETWEEN:	ETCS	HOURS	LECTURERS
SOCIAL DYNAMICS IN LOCAL DEVELOPMENT	6	42h	OSTI G.
SOCIAL AND POLITICAL TOURISM GEOGRAPHIES	6	42h	RABBIOSI C.

FREE CHOICE COURSE UNITS
9-12 ETCS must be chosen among all the course units provided by University of Padova Masters' programmes. More information will be provided during the Kick-off Seminar and on Moodle .

SECOND YEAR COURSES – cohort 2023-24

FIRST SEMESTER

COMPULSORY COURSE UNITS	ETCS	HOURS	LECTURERS (to be confirmed)
TRANSFORMATIVE LEARNING, PARTICIPATION AND GROUP DYNAMICS	6	42h	SURIAN A.
SPACE, PLACE AND MOBILITY	6	42h	RABBIOSI C.
COMMUNITY, LOCALITY AND CULTURAL HERITAGE	6	42h	MILICIA M.T.
MICROFINANCE FOR SOCIAL CHANGE	6	42h	LANZAVECCHIA A. PETTRACHIN A.

IRAMUTEQ LABORATORY

LECTURER: VALENTINA RIZZOLI

The laboratory aims to offer a guide for the analysis and interpretation of textual data (both produced for research purposes, such as interviews, answers to open-ended questions, and spontaneously produced data such as documents, social media posts) in an automated way (i.e., with the support of the Iramuteq software). In particular, it will be divided into three parts:

- 1) Introduction to automatic analysis of textual data (what are textual data and how can they be analysed automatically?). How to install the software on your computer.
- 2) First steps of automatic text analysis: Constructing the corpus and exploring the data with Iramuteq.
- 3) Automatic text analysis with Iramuteq: Topic detection, mapping content in relation to variables (text attributes). Some examples of applications (analysis of interviews, social media, institutional documents, ...).

LECTURERS LIST

Prof. Matteo Bassoli

SOCIAL RESEARCH METHODOLOGY ([check the syllabus](#))

matteo.bassoli@unipd.it

I am a political scientist, and my research interests lie primarily in the domain of public policies. I have developed a solid research track with different methodological approaches. Within this perspective, I deal with the following topics:

- local ruling mapping
- geo-referencing local policies
- data imputation
- survey creation
- empirical research
- social network analysis

I encourage students to conduct empirical research based on their interest and the methodologies learnt during the course.

[Office hours, proposal for thesis and additional information](#)

Prof. Maria Castiglioni

STATISTICS FOR SOCIAL SCIENCE ([check the syllabus](#))

STATISTICAL METHODS FOR LOCAL DEVELOPMENT ([check the syllabus](#))

maria.castiglioni@unipd.it

- Population dynamics (and their components), on local and national scale. As example, fertility and reproductive health, infant mortality, family formation and dissolution, migration, ageing...
- Intergenerational exchanges (such as support, proximity, contacts...) among relatives within families.
- Problems related to quantitative measurement. Data collection (birth registration, use of administrative data, questionnaire...).
- Indicators (comparability, data quality, measure, meaning, interpretation...).
- Impact evaluation of intervention for social problems.

[Office hours, proposal for thesis and additional information](#)

Prof. David Celetti

TERRITORIAL STRATEGIC APPROACHES FOR LOCAL DEVELOPMENT ([check the syllabus](#))

david.celetti@unipd.it

My research interests are focused on Economic and Social History, with particular attention to the processes that sustained, or hampered, economic growth and social development. In particular I have tackled such issues as the role of pluri-activity in rural households:

- the causes and long-term consequences of the social and national division of labour
- the role of institution, technological transfer and labour organization in promoting economic growth
- the paths of transition from agriculture to industry in Western European countries
- the causes and modalities of transformation of planned into market-oriented economies, with particular reference to the USSR and China
- the coexistence in time and space of different development's structures
- the potentialities of local sustainable development, of green and blue economy

[Office hours, proposal for thesis and additional information](#)

Prof. Francesca Gambarotto

CIRCULAR ECONOMICS AND LOCAL DEVELOPMENT ([check the syllabus](#))

francesca.gambarotto@unipd.it

- Local experiences for the development of a circular economy
- The cognitive process of a local community for the application of the circularity principle
- The coordination of local economic agents to develop local economic connections
- The empirical analysis can be unfolded with indexes or interviews. Quantitative and qualitative investigations are both welcome.

[Office hours, proposal for thesis and additional information](#)

Prof. Alberto Lanzavecchia

MICROFINANCE FOR LOCAL DEVELOPMENT ([check the syllabus](#))

alberto.lanzavecchia@unipd.it

I am honoured to work since December 2008 for the University of Padova as researcher in "Economics of Financial Intermediaries and Corporate Finance". I was Director of the Master in Asset Management and now Coordinator of the International Winter School "Microfinance in Action" in Nepal organized by the University Centre for Human Rights.

I believe that the duty of a researcher does not end either at the end of a lecture to students or in a publication in a prestigious magazine read only by "insiders", but continues towards the search for truth, through methodical doubt and tolerance of other people's ideas, and its dissemination to all citizens. This is the only way to contribute to the good and progress of society.

Themes of thesis research:

- Climate change, adaptation strategies and microfinance
- UNESCO MaB and community-based tourism: the role of microfinance
- Microfinance and local development: case studies

[Office hours, proposal for thesis and additional information](#)

Prof. Maria Teresa Milicia

COMMUNITY, LOCALITY AND CULTURAL HERITAGE

mariateresa.milicia@unipd.it

I am a cultural anthropologist, and my ethnographic fieldwork mostly takes place in Southern Italy with a focus on social processes of “production of locality.” My main research areas include:

- Social construction of identities and locality, politics of memory, "post-meridionalist" activism, performances of the past in heritage communities.
- History of anthropology with a focus on racial anthropology, scientific racism, colonial collections of human remains and repatriation studies.

[Office hours, proposal for thesis and additional information](#)

Prof. Giorgia Nesti

LOCAL DEMOCRACY ([check the syllabus](#))

giorgia.nesti@unipd.it

I am a political scientist, and my research interests focus primarily on public policy, local innovation, e-government, ICT policies and Gender studies. I am the Scientific Director with Matteo Bassoli of 'URBES – Observatory on Urban Policies' at the [Centre for Regional Studies 'Giorgio Lago'](#) at the University of Padua.

I'm the Principal Investigator of the project [POLBIS](#) - The Politics and Policy of Basic Income Schemes: lessons from Italian and European cases co-funded by the Cariparo Foundation and of the project The Role of Urban Living Labs in the [Innovation of Local Public Services](#) funded by the Department of Political Science, Law and International Studies @Unipd.

My specific topics of interests are:

- Innovation in cities
- Living labs
- Public sector innovations
- Democratic innovations
- Urban inequalities
- Participatory and multi-level decision-making
- European policies for social innovation and urban contexts.

[Office hours, proposal for thesis and additional information](#)

T. Kim H. Nguyen

STATISTICS FOR SOCIAL SCIENCE ([check the syllabus](#))

thikimhue.nguyen@unipd.it

Thi Kim Hue Nguyen is a postdoc at the Department of Statistical Sciences, University of Padova. She completed a Master's degree in Probability and Statistics at the Faculty of Mathematics, Paul Sabatier University. Then, she enrolled in the doctoral program in Statistics of the University of Padova, under the supervision of Prof. Monica Chiogna. She obtained a PhD in 2018 and started working at the same Department till now.

Her principal areas of research are computational statistics and biostatistics. In particular, she has investigated the use of graphical models for modelling and extracting information from complex biological networks.

Office 122 - Department of Statistical Sciences: Via Cesare Battisti, 241.

Prof. Giorgio Osti

SOCIAL DYNAMICS IN LOCAL DEVELOPMENT ([check the syllabus](#))

g.osti@unipd.it

Development processes in fragile areas, the figure of the agricultural innovator, role of the Mountain Communities, consent, and legitimization of natural parks, raise of the environmental crisis in modern societies, environmental associations, and involvement of citizens in waste management, local energy co-provision systems, rivers and detention basins. Member of the Italian FP6-CITIZENS-2 Research group, 'A Cognitive Approach to Rural Sustainable Development: the dynamics of expert and lay knowledges' (CORASON, 2004-2006). Without interruption, coordinator or member of research units of the Research Programs of Relevant National Interest (PRIN), 2001-2018.

[Office hours, proposal for thesis and additional information](#)

Prof. Omar Paccagnella

STATISTICAL METHODS FOR LOCAL DEVELOPMENT ([check the syllabus](#))

omar.paccagnella@unipd.it

- Multilevel missing data imputation
- Investigating depression in later life
- Analysis of the relationship between childhood conditions and some measures of well-being in later life
- Advanced analysis of data on Student Teaching Evaluations

[Office hours, proposal for thesis and additional information](#)

Prof. Trajche Panov

TERRITORIAL GOVERNANCE AND PUBLIC POLICIES ([check the syllabus](#))

trajche.panov@unipd.it

Trajche Panov is a postdoctoral fellow at the Department of Political Science, Law and International Studies at Università degli studi di Padova. Prior to coming to UniPD, he was a postdoctoral fellow at the University of Bergen, Norway. He has defended his PhD at the European University Institute (EUI) in Florence, Italy where he also obtained a Master of Research degree. He holds another MA in Political Science from Central European University. He has been a lecturer in European Union Policy Studies at James Madison University (campus Florence) between 2014 and 2017 and has taught courses or given visiting lectures at University of Bergen, University of Florence, Monash University, Heinrich Heine University in Dusseldorf, Germany and Dundee University in Scotland, UK. Trajche has also held visiting research positions at Harvard University and New York University. His research interests include: political behaviour, research methodology, EU studies, digital democracy and post-communist studies.

[Office hours, proposal for thesis and additional information](#)

Prof. Mariasole Pepa

GEOGRAPHICAL SPACE: CONCEPTS, TOOLS AND PRACTICE ([check the syllabus](#))

mariasole.pepa@unipd.it

I am a postdoc researcher at the Department of History, Geography, and of the Ancient World at Padua University where I obtained my Ph.D. in Human Geography with a doctoral project on China-Africa agricultural cooperation. Currently, I am working on a Research Project of National Interest (PRIN) titled “Contested wetlands in Sahelian drylands: which kind of development and for whom?”. I am responsible for the coordination of co-researchers in Burkina Faso and Lake Chad (<https://atlasahel.it/en/>). I am a member of the Cost Action – Decolonising Development and I am the Short-term scientific mission coordinator for the network.

My research interests are at the edge of critical geography and post-development studies. In particular, I am interested in the changes in development geographies and hierarchies of power, especially in the role that new/old actors have in 'fixing' African rural spaces concerning water and land conflicts. Moreover, I am interested in transformative initiatives (Kothari et al., 2019) and in pluralizing geographical conceptual-theoretical frameworks (Radcliffe, 2022).

[Office hours, proposal for thesis and additional information](#)

Prof. Andrea Pettrachin

MICROFINANCE FOR LOCAL DEVELOPMENT ([check the syllabus](#))
andrea.pettrachin@unipd.it

I am a political scientist specialised in migration policy and politics. I am also a Postdoctoral Researcher at Collegio Carlo Alberto (Italy) working on the scientific coordination of the H2020 Project Whole-COMM Project and I have previously worked as postdoctoral researcher at the Migration Policy Centre of the European University Institute. My research focuses on the interplay between migration governance, politics and policies, and particularly on their local dimension.

[Office hours, proposal for thesis and additional information](#)

Prof. Silvia E. Piovan

GIS: MAPPING AND ANALYSIS ([check the syllabus](#))

silvia.piovan@unipd.it

I am a Geographer with a focus on the geohistorical evolution of the human-environmental relationships in the alluvial plains. My approach typically involves both local and regional scales of analysis. In particular, I am interested in both theoretical and practical approaches that belong to disciplines as geohistory, historical ecology, environmental history and military geography. My research is often developed within a diachronical framework and uses a geohistorical approach that includes different methodologies such as analysis of historical maps, historical documents, diaries, (aerial) photos, newspapers, drawings, interviews, agricultural and marine reports, and field survey. The collected data are processed in a geographical information system (GIS) platform that allows a comparative (multilayer), multiscale, analytical and georeferenced analysis.

[Office hours, proposal for thesis and additional information](#)

Prof. Andrea Pozza

ESSENTIALS OF PROJECT PLANNING, MONITORING AND EVALUATION ([check the syllabus](#))

andrea.pozza@unipd.it

I am a free-lance expert focus on setting up Monitoring and Evaluation system of organizations, project and policies in developing countries (mainly Africa and Asia). I started to work in the agricultural sector but presently I am involved in projects/policies covering different sectors (public health, tourism, vocational training, irrigation).

The M&E systems I design and/or improve are based on “Result Based Management” (RBM) approach which focuses mainly on effects of the project and changes made rather than on activities or events implemented. In other words, it assesses “changes that have occurred due to the intervention” rather than “achievements made by the project”. These systems are designed to stimulate maximum 'buy-in' from data generators and users within and outside the intervention. Thus, project staff assume primary responsibility for its design, implementation, monitoring and review.

Office hours, proposal for thesis and additional information (available soon [at this link](#))

Prof. Chiara Rabbiosi

SOCIAL AND POLITICAL TOURISM GEOGRAPHIES ([check the syllabus](#))

SPACE, PLACE AND MOBILITY ([check the syllabus](#))

chiara.rabbiosi@unipd.it

I am a human geographer with a very interdisciplinary background, nurtured from a variety of perspectives coming from the Social Sciences and the Humanities. I am a member of DiSSGeA's Centre for Advanced Studies Mobility&Humanities–MoHu and I am part of the research group in charge of the [Digital Laboratory for Mobility Research–MobiLab](#). My main research areas include:

- Tourism and society: meanings, practices, policies, conflicts
- Consumer culture and space: shopping practices, shopping sites as public spaces, food, gender, and consumption
- Cultural heritage: tangible, intangible, co-creation
- Embodied mobilities: walking, cycling, commuting
- Urban studies: urban regeneration, place branding
- Qualitative methods and creative methodologies: ethnographic experimentations, performing data

[Office hours, proposal for thesis and additional information](#)

Prof. Marco Rangone

PRINCIPLES OF ECONOMICS FOR LOCAL DEVELOPMENT ([check the syllabus](#))

marco.rangone@unipd.it

My interest is the dynamics of local economic systems and their ability to sustain the social and economic wellness of the community living and working in them. The approach I use is a systemic approach that finds its roots in the works by economists and social scientists such as William Kapp, Albert Hirschmann, Francois Perroux, Gunnar Myrdal, Amartya Sen and – so far as the Italian tradition is concerned — Giorgio Fuà and Paolo Syslos Labini.

Dissertations that deal with the issue of local economic structure and change and the related issue of collective values and policies for development are welcomed.

[Office hours, proposal for thesis and additional information](#)

Prof. Alessio Surian

TRANSFORMATIVE LEARNING, PARTICIPATION AND GROUP DYNAMICS ([check the syllabus](#))
alessio.surian@unipd.it

I am a psychologist who specialises in social interaction and transformative learning. In relation to territorial planning, I am interested in participatory approaches and methods to decision-making process and in bottom-up / community engagement in co-constructing knowledge.

I have an activist and practitioner focus on social and circular economy, housing rights, intercultural and decolonial perspectives.

I am regularly collaborating with the Intercultural Cities network and with educational and housing rights policies in Argentina and Brazil.

Examples of specific topics:

- Participatory community planning
- Knowledge management in territorial planning and policies
- Collaborative economies' learning and teambuilding issues

[Office hours, proposal for thesis and additional information](#)

MOBILITY EXCHANGES

The **Erasmus+ for Studies programme** allows students to spend a period of study between 2 and 12 months. It is possible to attend courses and take exams, to prepare thesis work and to carry out internship work as long as it runs alongside a period of study.

Participating students will receive an Erasmus+ EU grant during the period abroad.

For more information: <https://www.unipd.it/en/erasmus-studies-out>

SEMP - Swiss European Mobility Programme is the programme allowing student mobility to Switzerland.

For more information: <https://www.unipd.it/sempr>

The **Ulisse** Programme enables students to spend a study, thesis research or internship period abroad at partner Universities from non-EU countries in Europe, Americas, Asia, Australia.

For more information: <https://www.unipd.it/en/ulisse>

Further exchange options are also provided by the **Open Arqus Mobility** destinations that include the universities of Bergen, Granada, Graz, Leipzig, Lyon and Vilnius.

For more information: <https://www.unipd.it/en/arqus>

At the end of the period abroad, the sending institution will give full academic recognition for activities completed during the mobility period, as agreed in the Learning Agreement, by using ECTS credits or an equivalent system. The mobility period will also be recorded in the Diploma Supplement.

As Local Development students, your main reference point will be the Mobility Unit Desk at the School of Humanities, Social Sciences and Cultural Heritage.

For more information: <https://www.unipd.it/en/erasmus-human-social-science>

Contact person: Dr. Tanya Van Luyten, erasmus.scienzeumane@unipd.it

LOCAL DEVELOPMENT PRIORITY DESTINATIONS

In the platform, the total number of months indicated under Number for each agreement must be divided by the number of available places indicated under Total number. It is necessary to note down all relevant information (e.g., Erasmus code, Academic Coordinator, ISCED/area of study) in order to select the correct destination in Uniweb.

It is recommended that students consult the webpages of the partner institutions, paying particular attention to the academic courses on offer, to the language requirements and deadlines.

Please double check language and additional requirements for the specific course unit you would like to attend, as they are subject to change. Further linguistic restrictions may apply to specific course units.

Before applying for a destination, please contact the professor in charge of that specific agreement.

VIRTUAL EXCHANGE PROGRAMMES

The VIP is a virtual mobility programme organised by the Justus-Liebig Universitat Giessen, Germany:

<https://www.unipd.it/en/exchange-students/virtual-international-programme-vip-outgoing>

Please note that Local Development students may only recognise credits outside the study plan, that is to say the JLU course units cannot be recognised as equivalent neither to Unipd course units, nor as free credits/elective course units that are in your study plan.

Still, you can attend the course units and, if you pass them, you can include them as simply attended activities in your Diploma Supplement (the marks of these credits won't count for your final GPA).
