# Study Plan

Each student must fill in the Study Plan, i.e a document showing the list of educational activities which the student intend to pursue (mandatory and optional) to reach the 180 ECTS credits needed to obtain a bachelor degree or the 120 credits needed to obtain a master degree.

Every year, study plans can be filled in from October till July. Students can make amendments to their study plan (even several times). The Study Plan must be filled in before registering for the exams. Once the degree application has been submitted on Uniweb, the study plan can NOT be modified.

Filling in the form requires a knowledge of the complete prospectus of educational activities involved in the degree course chosen. The educational activities plan is called **Attachment 2 (Allegato 2)**. A course's Attachment 2 is drawn up every academic year and lists the educational activities which students registered in that academic year must complete to obtain their degrees specifying both any active curricula and all teaching programmes (mandatory or optional) involved.

Before filling in your study plan, select the Attachment 2 you are interested in taking account of **the year you first enrolled on the course**.

All Degree Courses offered at the Department of Linguistic and Literary Studies (DiSLL) include «**free credits**» in the Study Plan.

When filling in the Study Plan «free credits» can be added through two different rules:

**Rule a)** adding courses offered within your Degree course;

**Rule b)** adding courses offered within other Degree courses;

## RULE A

### Adding courses offered within your Degree course

- When filling in your Study Plan Uniweb proposes a list of remaining courses (i.e. courses you have not selected in the previous rules);
- Flag the course you wish to add to your Study Plan.

Please note that it is not possible to add Language Abilities, Other activities or stage/internships.

## RULE B

### Adding courses offered within other Degree courses

This rule allows to add courses from other Degree programmes of the University of Padova.

To search for the courses use the page <https://unipd.coursecatalogue.cineca.it/>

Through the Advanced Search Functionality you can look for courses using different criteria:

It is possible to look for courses looking for the name of the course/professor, semester, or SSD;

Choose the course(s) from Degree course and find the full list of Degree Courses divided per Department in Uniweb.

The screenshot shows the Uniweb Course Catalogue interface. At the top, there is a search bar with the placeholder 'Cerca per' and a note: 'Seleziona la tipologia di filtro per cui vuoi effettuare la ricerca tra: corso, insegnamento, docente'. Below the search bar, the results are displayed under 'Risultati della ricerca' with the note: 'La ricerca con i filtri impostati ha individuato 9 risultati.' The results list includes:
