LINGUISTICS at CUNY Graduate Center
OPEN HOUSE, October 10, 2019

The Linguistics Program at the Graduate Center is designed to provide students with well-grounded training in general linguistics and a wide choice of specialized sub-disciplines. Our PhD. and M.A. programs prepare students for careers in scientific research, teaching, private industry and public planning. We offer coursework, laboratory experience, and research supervision in theoretical, experimental, descriptive and applied linguistics. PhD. candidates master the discipline of linguistics in its broadest sense, acquire knowledge of a specialized area, and perform independent research, while M.A. students may have a narrower, more descriptive, or critical focus. All graduate students work under close guidance with faculty members of their choice. Our faculty members are internationally recognized for their research expertise in many areas, including:

- bilingualism and multilingualism
- computational linguistics
- endangered languages
- first and second language acquisition
- historical linguistics
- linguistic typology
- morphology
- neurolinguistics
- phonetics and phonology
- sentence processing
- syntax and semantics
- sociolinguistics

Interdisciplinary work is strongly encouraged, and a number of Linguistics faculty hold joint appointments in other programs, including: *Anthropology; Computer Science; Latin American, Iberian, and Latino Cultures; and Speech-Language-Hearing Sciences*.

Major projects and grant-funded research initiatives are conducted in: *The Computational Linguistics Laboratory; The Psycholinguistics Laboratory; The Second Language Acquisition Laboratory; The Research Institute for the Study of Language in Urban Society; The Corpus of New York City English Project; The Endangered Language Initiative.*

New York City is now considered one of the most linguistically diverse places on earth. Could there be a better place to study linguistics?

Come see and hear for yourself!

365 Fifth Avenue, Room 7407, New York, NY 10016
or, if you can't make it, visit www.gc.cuny.edu/linguistics

GC Linguistics Open House – Preliminary Schedule
(check our website later this month for an updated schedule at: www.gc.cuny.edu/linguistics)

Time		Lab tour	Class	Other Activity	Room
10am-10:55am		Second Language Acquisition Lab			7393
11am-11:30am		Speech Production, Acoustics, and Perception			7303
11:45am-1:45pm			*Neurodevelopment of Bilingual Language Learning* (rm.7102), Prof. Valerie Shafer		
12pm-4pm				Dr. S. van der Feest's Developmental Speech Perception lab & hours	7312
1pm-1:30pm		Computational Linguistics Lab			7400.13
*1:30pm-2pm	LUNCH	LUNCH	LUNCH	all welcome!	
2pm-4pm			*(1)Natural Language Processing (rm.5383)* Prof. Alla Rozovskaya, *(2)Syntax I Practicum* (rm.7314), led by C. Lowry		
2pm-4pm				Prof. Loraine Obler's Neurolinguistics Lab meeting	7404
2:30pm-3:30pm				Linguistics Alumni panel: life experience	3212
3:15pm-4pm		Second Language Acquisition Lab			7393
4:15pm-6pm				**Colloquium: Wei-Rong Chen** (Haskins, Yale Univ.)	6417
				post-lecture reception ALL are welcome!	7400

==**Student and Faculty Research posters will be on display all day in room 7400.**==

Individual meetings with professors/Open Office hours:

Professor :	Primary area:	room and time:
Juliette Blevins	Phonology, Historical Ling. Language Documentation	7400.09, 2pm-4pm
Jason Kandybowicz	Syntax, Field linguistics	7400.04, 2pm-4pm
Kyle Gorman	Computational linguistics	7400.01, 10:30am-12:30pm, 2:30pm-4pm
Sam Al Khatib	Semantics	7400.02, 11am-1pm
Suzanne van der Feest	Language Development	7312, 10am-12pm
Christina Hagedorn	Phonetics/Lab Phonology	7208, 2pm-4pm
Jason Bishop	Phonetics, Lab Phonology, Prosody	7208, 10am-2pm
