MAKING DREAM KITCHENS FOR YOU

We've been developing kitchens for nearly 50 years now. It's been a fantastic journey for us. One of listening and learning, rigorous testing, and constantly coming up with new ideas to make people's kitchen dreams come true. Optimal function and feel-good factor are at the heart of our kitchens, with quality every bit as important to ensuring that your kitchen gives you many years of enjoyment. In fact, we are so confident of the quality of our METOD kitchens, we offer you a free 25-Year guarantee to prove it.

A kitchen that lasts, and works for you in everyday life, should also be one that makes it possible for you to take any steps you want towards living more sustainably. This is why we offer waste sorting solutions, taps that help you save water, and appliances that are energy efficient. These may seem like small, personal actions, but the beauty of it is that they all add up. So with these design solutions, you'll be helping to save the planet's resources for everyone, as well as saving money for yourself.

With IKEA kitchens, you also have the freedom to determine your price tag, because the designs are easy to customise, and you can select the level of services you need. Whatever you decide, you can rely on us for full support before, during and after purchase.

Creating a better everyday life for as many people as possible is the IKEA vision, with a focus on increasing the pleasure everyone gets from simple, daily activities. So where beauty meets function at an affordable price, you'll know you're in an IKEA kitchen.

FIRST...

Create easy access for the everyday utensils you need constantly to hand. A hard-wearing bamboo tray in the top drawer does the job nicely. Bulky pots and pans are tidied away in drawers beneath, but all readily available the moment you need them.

FOREMOST...

It's practical to keep dry foodstuffs that you use often, closest to your preparation area. In the inner drawer at the top, we've used spice jar inserts, with food containers underneath, sized to fit the drawers in an efficient store and display system.

AND FINALLY... EAT!

Get set for easier mealtimes. Plates at the bottom, bowls and other dinnerware above. A cutlery drawer, topped off with one for placemats and napkins, and you're good to go. Drawer mats will dampen sound and protect the drawers against scratching.

RINGHULT/JÄRSTA

A great advantage with a white design like RINGHULT, is that you can co-ordinate it with whatever colour you like. By adding one or two bold accent doors like JÄRSTA, you can totally personalise your kitchen.

Check out all our game-changing accent doors on **page 54**

Another trick to create a personal touch to your kitchen is to use cabinets in different depths. The shallower ones give you extra storage, but aren't in the way when you prepare food on the worktop.

What is covered under this guarantee?

The guarantee covers faults of the appliance, which have been caused by faulty construction or materials faults from the date of purchase from IKEA. This guarantee applies to domestic use only. The exceptions are specified under the heading "What is not covered under this guarantee?" Within the guarantee period, the costs to remedy the fault, e.g. repairs, parts, labour and travel, will be covered, provided that the appliance is accessible for repair without special expenditure. On these conditions the EU guidelines (Nr. 99/44/EG) and the respective local regulations are applicable. Replaced parts become the property of IKEA.

How long is the guarantee valid?

This guarantee is valid for five (5) years from the original date of purchase of the IKEA appliance from IKEA. TILLREDA and LAGAN appliances have a 2-Year guarantee valid from the original date of purchase. If service work is carried out during the guarantee period, this will not extend the guarantee period for the appliance, or the new parts.

Which appliances are covered under this guarantee?

The 5-Year guarantee is valid for all IKEA appliances, except for TILLREDA and LAGAN appliances, which have a 2-Year guarantee.

Who will execute the service? The IKEA service provider will provide the service through its own service operations or authorised service partner network.

If a customer transports the product to their home or other address, IKEA is not liable for any damage that may occur during transport. However, in the case of IKEA delivery of the product to the customer's delivery address, then eventual damages to the product that occurs during this delivery will be covered by IKEA (but not under this guarantee). For claims under this last particular condition, the customer should contact IKEA Customer Service online at www.IKEA.co.uk • Cost for carrying out the initial installation of the IKEA appliance.
