## MAKING DREAM KITCHENS FOR YOU

We've been developing kitchens for nearly 50 years now. It's been a fantastic journey of learning, listening to people, testing and always aiming higher to meet people's idea of a dream kitchen. We design them to be tough, work optimally and feel good for you to spend time in for many years to come. And, for this to happen, quality has to be as important as style and function. We are so confident of the quality of our SEKTION kitchens, we offer you a free limited warranty to prove it.

A kitchen that lasts, and works for you in your everyday life, should also be a smart kitchen that makes it possible for you to take the steps you want to live more sustainably. This is why we offer recycling solutions, faucets that help you save water and appliances that are energy efficient. They may seem like small things, but that's the beauty of small actions – they all add up. And the best part? You'll not only be saving on the planet's resources, but these are solutions that help you save money too.

With our IKEA kitchens, you also have the freedom to design your own price tag. Not just because they're so customizable, but also by choosing the level of services you need. Whatever you decide, we offer full support before, during and after purchase.

As creating a better everyday life for the many people is the IKEA vision, we always strive towards making simple, daily activities a true joy for you to engage in. And to bring beauty and function together at a price that make a dream kitchen affordable for you.

Sloping ceilings, low windows, even piping can be worked around when you work with the SEKTION kitchen system. Often these kinds of wall spaces won't get used because it's not possible to work around them. A modular kitchen system changes all that and opens up the potential of your home by maximizing the architecture. And these HÄGGEBY fronts make the kitchen feel clean and spacious.

Use a couple of drawers close to your cooktop for storing your pots and saucepans. A divider will help you get your lids in order, too. That way you have easy access to what you need when you need it.
