*"Dear directors,*

*I am proud to present you with the 16th edition of the Mobile Film Festival.*

*This year, we are happy to invite you to create films on the theme*  
**WOMEN'S EMPOWERMENT.**

*Through this theme, we want to address feminist issues in a positive,  
constructive, and activist way.*

*The questions could be specific to your country, your culture, your religion;  
they could concern the family, professional or intimate universe; they could  
denounce unacceptable situations that are still too present, but they could  
also propose concrete actions to improve the situation; they could be  
global or local and above all, they could highlight the feminist fights  
everywhere in the world in the search for real equality.*

*Be creative, imaginative, use all the forms that cinema offers you, including  
comedy, suspense, science fiction, documentaries, ... to engage the  
audience and convince the magnificent jury chaired this year by Agnès  
Jaoui."*
