

Institut National
Universitaire
Champollion

Inscribed on the UNESCO's World Heritage List since 2010, Albi is a city that is developing rapidly. The city center combines the medieval splendor of the bishops' seat of episcopal power with an urban heart, all centered on the unique edifice of the Cathedral of Sainte Cécile. Albi's environment is peaceful; everything is within walking distance. Many museums and cultural activities enrich Albi's radiance. It is hardly surprising that many higher education institutions, including Champollion, have settled here.
