

Evaluation Knowledge Bank Task Force 'Socio-economic fabric of rural areas'

Thematic cluster: Local development

Wednesday, 29 September 2021
10:00 – 12:00 (CET/Brussels time)
Online format via Zoom (link provided to registered participants)

This meeting aims to further discuss and validate the usability of project outputs published in the [Evaluation Knowledge Bank](#) mainly enhancing the sections 'Relevance for M&E of the CAP' on feedback from stakeholders. Additionally, participants will discuss the transferability of project outputs to Member States which have not been involved in testing respective project outputs so far.

The online meeting will be attended by selected experts of the Thematic Working Group, practitioners and experts representing Managing Authorities, evaluators, project members, researchers, DG Agri representatives and other stakeholders.

Questions, which will be discussed for presented outputs:

- To what extent are the presented outputs **relevant for monitoring and evaluation** of the CAP? (*particularly: local development/LEADER, newcomers in rural areas, social innovation*)
- How would you **use the presented outputs** in monitoring and evaluation of the CAP?
- What **conditions** would have to be in place in your Member State in order to use the presented outputs in monitoring and evaluation of CAP?
- What could be **potential limitations** for using presented outputs in monitoring and evaluation of CAP?
- What **additional information** would be needed to apply the presented outputs in your Member State?

The Evaluation Helpdesk facilitates the online-meeting and summarizes its outcomes.

AGENDA

9:50	Zoom online meeting room opened
10:00	Welcome, introduction to the Evaluation Knowledge Bank thematic cluster and objectives of the meeting
10:10	<p>Discussion about the potential use of the following outputs in monitoring and evaluation of the CAP</p> <p>Local development / LEADER</p> <p><u>New data for M&E:</u></p> <ul style="list-style-type: none"> • IMAJINE - Local level database for socio-economic indicators • The FLINT Farm Return data recording system <p><u>New indicators:</u></p> <ul style="list-style-type: none"> • IMAJINE - Proposal for a composite indicator for local development • FLINT - Sustainability indicators at the farm level for monitoring and evaluating the CAP <p><u>Methodologies:</u></p> <ul style="list-style-type: none"> • MATILDE toolbox • SPARD - Spatial econometric models for evaluating RDP measures
