TransText

In its third edition, the 2026 Entanglements International Summer School explores postcolonial horrors as aesthetic, political, and epistemological devices through which literatures stage traumatic memories of colonization, identity tensions, diasporic movements, and the reappearance of the spectral in global modernities. The aim is to reinterpret horror not only as a genre, but as a critical and deconstructive tool for disrupting ethnocentric categories of subjectivity, body, sovereignty, and knowledge.

Draft program

Monday 6 July 2026: School Opening

10 am - 12:30 pm
